What's the Content?

This programme is not about teaching you how to become a professionally qualified coach. It's about harnessing the skill of coaching to become a better leader and manager.

We will dive into the coaching fundamentals including asking powerful questions, refining your listening skills and stepping back from the need to have all the answers as a leader or manager.

We'll share a proven model of feedback (GROW) and equip you with the skills to develop your confidence to coach, motivate others, drive performance, and foster a culture of continuous growth within your organisation.

The Investment?

The cost is **£845 + VAT** and the estimated time commitment will be approximately 2 days across a 6-8 week period. This will be a combination of time with us, time together and time by yourself following self-directed learning.

If you're choosing to pay for this programme personally and not through a business, let us know and we can look to offer you a discounted rate.
